C	**New account balance (A+B)**	**€223.45**	**Amount due**

Payment Information
Thank you for paying by Direct Debit.

Average daily use (units)

This period

Same period last year

This is the total number of units used divided by the number of days in the billing period and can help you monitor how much electricity you are using.

It is not always possible to provide this information and so 'not available' will sometimes appear. Actual and estimated meter readings are treated the same.
